

EASY APPLICATION FOR TOUGH JOBS

Retractable Ratchet tie-downs are constructed from top of the line materials to secure all types of cargo while keeping excess webbing organized and out of the way. Strong torsion springs ensure a smooth and complete retraction every time while providing the holding power and precise tension adjustment you expect from a traditional tie down.

Features:

- Built-in power spring automatically retracts webbing for storage
- No feeding straps, tying off ends or removing webbing from ratchet
- Straps are fully self-contained with no extraneous parts
- Strong handles with gear spring design
- Heavy duty weather resistant webbing
