

SilverCap OverDrive®

PATENTED
No. 7,618,021

CONVERT ANY WINCH INTO A RATCHETING WINCH BY ADDING ANCRA'S OVERDRIVE RATCHETING CAP

SilverCap OverDrive exceeds the industry's most rigid quality and finish standards.

BENEFITS:

- The rotating pawl ratchet mechanism is a more trouble-free design than the sliding pin mechanism on other models
- All seals are internal so there is no outer rubber seal needed, which can deteriorate over time
- The new ratcheting mechanism has been proven in the field
 - Easy access grease fitting for maintaining trouble-free function
 - Installs easily onto most standard winches using the hardware provided
 - The outside shape will change to accommodate the revised ratchet mechanism design but the total weight is still 3.5 lb.
 - The drive cap has a smaller diameter and thickness and is made of a durable, heat-treated steel material

49723-10
Weight: 3.5 lbs

IMPROVED

Your winch bar stays in the winch until your straps are tight.

VERSATILE

Available in weld-on, sliding, or portable-mount models.

EASY TO USE

The lubricated cap with a Grime Guard Weather-Tight Seal fits over the existing winch cap without having to remove the winch from the trailer, making it faster and safer than conventional winches.

EASIER
SAFER
MORE EFFICIENT

To install on any existing winch:

1. Simply slide the OverDrive unit over the cap of the old winch.
2. Spin it in place.
3. Secure it with the bolt.

It's that simple.
All necessary parts are included.
